1. MASTER TEST CREDENTIALS REFERENCE TABLE

Use these credentials to verify each role's permission boundary, department scoping, and action privileges:

Role Category	Primary Test Email	Password	Assigned Department	Scope & Privilege Level
SUPER ADMIN	admin@flumenx.com	password123	Operations	Global Wildcard (Full Access across all 19 modules, system settings & roles)
OPERATIONS / CMO	operations@flumenx.com	password123	Operations	Company-wide View & Edit (Tasks, Deliverables, Team Work, KPI, Clients)
HR MANAGER	hr@flumenx.com abeysonpmathewflumenx@gmail.com	password123	Human Resources	Company-wide Employee Directory, Attendance Management, Leaves Decision, Salary Slips
ACCOUNTANT	accountant@flumenx.com anandhursflumenx@gmail.com	password123	Accounts	Salary Slip Generation & Distribution, Finance Reports, Attendance/Leave view
BD / BDO	bde@flumenx.com anuragjsflumenx@gmail.com	password123	Business Development	Client Master Management, Client Portal Share Links, Self Attendance & Leaves
WEB DEV TEAM LEAD	web.lead@flumenx.com najilrahmanflumenx@gmail.com	password123	Web Development	Department-Only Scoping (Web Dev Tasks & Members Only; Task Creation Allowed)
DM TEAM LEAD	dhishunjith@flumenx.com	password123	Digital Marketing	Department-Only Scoping (Digital Marketing Tasks & Members Only)
WEB DEV EMPLOYEE	emp01@flumenx.com nidhinkgflumenx@gmail.com	password123	Web Development	Strictly Self-Service (Own Assigned Tasks Only; Own Timer Only; No Task Creation)
VIDEO EDITOR EMP	ananduanilflumenx@gmail.com	password123	Video Editing	Strictly Self-Service (Own Video Editing Tasks Only; Isolated from Web Dev)

2. STEP-BY-STEP TESTING FLOW BY USER ROLE

TEST 1: Web Development Team Lead (TEAM_LEAD)

web.lead@flumenx.com / password123

Objective: Verify department isolation, team task assignment, and read-only timer buttons on peer tasks.

#	Page / Route	Action to Perform & Expected Security Behavior	Status
1.1	/team-lead/work Task Board	☐ Check Task Board Visibility: Verify ONLY Web Development tasks appear. Ananthu's Video Editing tasks MUST NOT be visible. ☐ Check Member Dropdown: Verify only Web Dev members (Nidhin KG, Akhil S.S., Najil) appear in the member filter dropdown. ☐ Create Task Button: Click + Create Task . Verify you can assign tasks to Web Dev members. Verify assigning to cross-department is rejected.	[] PASS [] FAIL
1.2	/team-lead/work Timer Check	☐ Own Task Timer: On a task assigned to yourself, verify the active green ► Start Timer / red ■ Stop Timer button is interactive. ☐ Peer Task Timer: On a task assigned to Nidhin or Akhil, verify you see a read-only time badge (e.g. 🕒 2h 15m) and CANNOT start/stop their timer.	[] PASS [] FAIL
1.3	/employees Employees Directory	☐ Directory Scoping: Verify the directory lists only Web Development employees + yourself. ☐ Action Guard: Verify there is NO "+ Add Employee" button and NO Edit/Delete action buttons.	[] PASS [] FAIL
1.4	/team-lead/leaves Leave Requests	☐ Leave Visibility: Verify you only see leave requests submitted by Web Development team members and your own leaves. ☐ Leave Decision: Verify you can Approve or Reject department leaves.	[] PASS [] FAIL
1.5	/admin/roles URL Penetration Test	☐ Unauthorized Access Check: Manually type https://erp.flumenx.in/admin/roles or /admin/users in browser address bar. Verify you are IMMEDIATELY redirected back to dashboard.	[] PASS [] FAIL

TEST 2: Standard Employee (EMPLOYEE)

emp01@flumenx.com / password123

Objective: Verify strict self-service data isolation, individual timer controls, and absence of administrative actions.

#	Page / Route	Action to Perform & Expected Security Behavior	Status
2.1	/employee/work Task Board	☐ Task Scope: Verify you ONLY see tasks assigned to you (Nidhin KG / emp01). No other employee's tasks are visible. ☐ Task Creation: Verify there is NO "+ Create Task" button. Attempting direct API POST to /api/work-assignments/ returns 403 Forbidden.	[] PASS [] FAIL
2.2	/timer Time Tracker	☐ Start Timer: Click ► Start Timer on your assigned task. Verify status turns to "In Progress" and counter ticks live in seconds. ☐ Stop Timer: Click ■ Stop Timer. Verify elapsed time is accurately logged in time history.	[] PASS [] FAIL
2.3	/employee/attendance My Attendance	☐ Attendance Isolation: Verify ONLY your own punch-in/out records are listed. ☐ Punch Attendance: Click Punch In / Out. Verify time is recorded accurately in Indian Standard Time (IST).	[] PASS [] FAIL
2.4	/employee/leaves My Leaves	☐ Apply Leave: Submit a leave request. ☐ Decision Guard: Verify there are NO Approve/Reject action buttons.	[] PASS [] FAIL
2.5	Sidebar Navigation	☐ Sidebar Audit: Verify "Team Work", "Dynamic Roles", "User Management", and "Settings" are completely absent from the sidebar.	[] PASS [] FAIL

TEST 3: HR Manager (HR)

hr@flumenx.com / password123

Objective: Verify company-wide HR management capabilities (Add/Edit employees, Approve leaves, Attendance overview) while restricted from System Roles.

#	Page / Route	Action to Perform & Expected Security Behavior	Status
3.1	/employees Employees Master	☐ Company Directory: Verify ALL employees across all departments (Web Dev, Design, Video Editing, DM, Accounts) are visible. ☐ Add Employee: Verify "+ Add Employee" button is visible and opening employee creation form. ☐ Edit Employee: Verify Edit button is available on employee rows. ☐ Delete Guard: Verify Delete button is disabled / hidden.	[] PASS [] FAIL
3.2	/hr/leaves Company Leaves	☐ All Requests: Verify leave requests across all departments are listed. ☐ Approve/Reject: Click Approve on a pending leave request and verify status updates to "Approved".	[] PASS [] FAIL
3.3	/hr/attendance Attendance Master	☐ Company Attendance: View daily punch-ins for all staff with IST timestamps.	[] PASS [] FAIL

TEST 4: Accountant (ACCOUNTANT)

accountant@flumenx.com / password123

Objective: Verify financial access, salary slip generation, and restricted access to admin/system pages.

#	Page / Route	Action to Perform & Expected Security Behavior	Status
4.1	/accountant/salary-slips Salary Slips	☐ Generate Slips: Verify you can generate monthly salary slips for employees and view PDF previews.	[] PASS [] FAIL
4.2	/accountant/reports Finance Reports	☐ Reports View: Verify payroll summaries and financial exports are accessible.	[] PASS [] FAIL

TEST 5: Super Administrator (SUPER_ADMIN)

admin@flumenx.com / password123

Objective: Verify master wildcard governance across all 19 modules, system policies, and role management.

#	Page / Route	Action to Perform & Expected Security Behavior	Status
5.1	/admin/roles Dynamic Roles	☐ Role Configuration: Verify all 9 system roles and their permission matrices can be edited.	[] PASS [] FAIL
5.2	/admin/users User Management	☐ User Control: Verify ability to create users, reset passwords, and toggle active status.	[] PASS [] FAIL
5.3	/admin/attendance/settings GPS Policy	☐ Policy Controls: Verify office latitude, longitude, radius, and office timings can be updated.	[] PASS [] FAIL
